#### **Mac Mini Vault teams up with appssolute GmbH to include MAMP web hosting software with Mac Mini Colocation services.**

Franklin, WI July 8, 2011 – Mac Mini Vault has teamed up appssolute GmbH, the makers of MAMP, to include the MAMP PRO web hosting software as a part of its Mac colocation services.

MAMP stands for **M**acintosh, **A**pache, **M**ySQL, and **P**HP. MAMP PRO allows customers the ability to run a standard Linux (LAMP) style Apache web server on a Mac. The software features and settings are controlled from a graphical interface. Originally MAMP was designed for developers to allow them to run a local testing environment. The engineers at Mac Mini Vault worked with the developers at appssolute to extend production web server features into MAMP PRO.

MAMP PRO 2.0 will be available at no extra cost to any Mac Mini Vault customer to run on their collocated Mac while it is within Mac Mini Vault's data center. Upgrades will be available at no extra cost. Customers wanting to run a local copy of MAMP PRO for development purposes can purchase the software license for \$59.00USD from [www.mamp.info](http://www.mamp.info).

Mac Mini Vault is operated by CyberLynk. Mac Mini Vault offers colocation services for Mac computers starting at \$29.99USD per month. Mac Mini Vault has specially engineered 48U data center cabinets that hold over 140 Mac Mini computers each. Each Mac Mini is connected to the CyberLynk backbone via a gigabit ethernet connection. Redundant power and network connections ensure a consistent uptime in a enterprise data center environment. For more information about Mac Mini Vault visit [www.macminivault.com](http://www.macminivault.com).

CyberLynk is a family of technology companies that provide reliable data center services, cloud based hosted applications, and robust business services. CyberLynk has been in business since 1995 and is comprised of a small group of experienced engineers. For more information about CyberLynk visit [www.cyberlynk.net](http://www.cyberlynk.net).

appssolute GmbH is a German software company focusing on Mac and iOS development. appssolute develops and distributes MAMP and MAMP PRO Mac web hosting platforms. For more information about appssolute visit [www.appssolute.de](http://www.appssolute.de).
